

MATLA A BOKONE SOLAR

Formerly known as Droogfontein 2 Solar (RF) (Pty) Ltd

QUARTER 3 2021 NEWSLETTER

HEALTHY CHILDREN ARE A **HEALTHY FUTURE**

Our Integrated School Health Programme, which kicked-off during November 2021 will be implemented in two phases, over a 12-week period, and will benefit 2 190 learners, across 10 Primary and High Schools within our beneficiary communities

The community project provides comprehensive school health screenings in line with the Department of Education's Integrated School Health Policy and will be conducted on a fully equipped mobile clinic.

Over 700 learners and teachers will be screened each month, and the health services provided include: oral health screening; health education and promotion; vision and hearing screening; nutritional status assessments; physical assessments; and tuberculosis screenings.

Learners with poor eyesight will be provided with free corrective eye care, if required, plus learners with screenings that indicate abnormalities will be referred to the closest hospital for a full diagnostic assessment and further treatment.

The mobile clinic medical staff are all registered with the Health Professions Council of South Africa, and include a primary health clinic nurse, dental therapist, and an optometrist.

Our School Health Programme's HPV and TD vaccination drive has been successfully completed.

SIX STEPS TO **WASHING YOUR HANDS**

The Department of Health recommends washing your hands with soap for 20 seconds, to help slow the spread of coronavirus.

Use soap

Rub palm to palm
with fingers

Rub tips of fingers

Rub each wrist

Rinse your hands

Dry your hands

STAY SAFE
#CoronaVirus

YOUTH SKILLS DEVELOPMENT (CAREER GUIDANCE AND LEADERSHIP PROGRAMME)

Following a successful 2021 Career Guidance and Leadership Programme, the project will continue in 2022, and is designed to impact Grades 9, 10 and 12 learners. The programme will kick-start with a Career Expo for Grade 12 learners, within the Sol Plaatje Local Municipality, during the first quarter of 2022.

The programme focuses on ensuring that learners have the necessary tools and skills for high school and prepares them for post-high school life. Through the 'Knowing Me and Knowing My Future' Career Guidance and Leadership Programme, skills and tools are transferred to learners, while the process of quality decision making is facilitated.

The interventions above will be implemented throughout the 2022 Academic Year Calendar.

Aspirant entrepreneurs will be linked with SEFA (Small Enterprise Finance Agency) Northern Cape, SEDA (Small Enterprise Development Agency) Northern Cape, and the NYDA (National Youth Development Agency), so that they can receive further business development support and small business financing should they qualify for it.

YOUNG WOMEN-IN-BUSINESS: COMPLIANT BUSINESS WOMEN

As part of Matla A Bokone Solar's Enterprise Development efforts, a "Young Women in Business" Empowerment Initiative launched in celebration of Women's Month. The initiative aims to assist 100 young women, in the Sol Plaatje and Dikgatlong Local Municipalities, to start up small-scale enterprises.

The initiative is currently assisting young female entrepreneurs to successfully register new private companies and to generate their business start-up and compliance paperwork. This will ensure that these businesses are compliant with regards to CIPC Company Registration; BBBEE Certificate; New Business Bank Account; Tax Clearance Certificate; Central Supplier Database Registration.

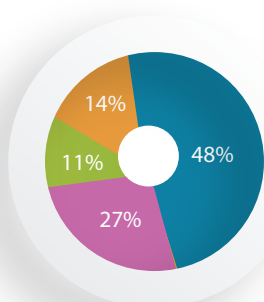

2021 UPCOMING COMMUNITY MEETINGS

Details of the next community engagements will be communicated on Matla A Bokone's online platforms as no face-to-face meetings are permitted during the national lockdown.
